

CEDAR

Conflict Minerals Statement

There has been increased awareness of human rights violations in the mining of certain minerals ("Conflict Minerals") from a Conflict Region in the eastern portion of the Democratic Republic Of Congo and surrounding countries. The common derivatives from these minerals are:

- Tantalum
- Tin
- Tungsten
- Gold

CEDAR Audio Ltd does not purchase any raw Conflict Minerals from any source. We also work with our suppliers to ensure that, to the best of our knowledge and belief, they are not using any products that contain Conflict Minerals or products that use Conflict Minerals in their manufacturing processes.
